### Capabilities

- ▶ Aseptic processing
- ▶ Assembly and final packaging
- ▶ Method optimization
- ▶ Commercial-scale production
- ▶ Feasibility / Pilot projects

### Program Features

- ▶ Exact technology transfer
- ▶ Complete, documented process control
- ▶ Highly trained, experienced staff
- ▶ Reliable, consistent on-time delivery
- ▶ Established quality systems / quality controls
- ▶ QA inspection and release

### The WuXi AppTec Facility

Processing is conducted in ISO Class 7 (Class 10,000) laboratories operating under strict GMP compliance in positive-pressure suites. Laboratories are HEPA filtered, continuously monitored and alarmed. Validated systems and procedures ensure the highest product quality.

### Testing Services Also Available

With many years of experience in testing medical devices and biologicals, WuXi AppTec is able to offer clients the additional convenience of testing services for their products, including antimicrobial efficacy studies, biocompatibility studies, material characterization, microbiological testing, viral/bacterial inactivation studies, environmental monitoring, and package testing. A full menu of toxicology, custom implant, and histopathology services is also available.

### Consultation

WuXi AppTec scientists are experts in conducting aseptic processing programs, as well as assisting in the development of client-specific testing programs to meet particular needs.

### Qualifications

All WuXi AppTec facilities are FDA registered. Additional qualifications include ISO certification, AAALAC accreditation, FDA registration for HCT/PS and medical devices, and AATB accreditation.
